## 1. GENERAL INFORMATION

### 1.1) **SAMUNDRA INSTITUTE OF MARITIME STUDIES**

Merchant Navy is a civilian naval fleet engaged in the transport of goods (cargo) from one location to another for trading purposes. With more than 90% of the world trade being carried by merchant ships, it is indeed the backbone of world trade. This role makes Merchant Navy different from the profession of Indian Navy.

Carrying cargo to different parts of the world requires and has made Merchant Navy a highly regularised profession. Ships today are equipped with the latest technology and provide an opportunity to those who join this profession as seafarers, a career full of adventure, continuous training opportunities and a high income.

Operating a modern ship efficiently requires specialised knowledge. A seafarer thus needs to undergo training to operate and manage a ship. The two main departments of operating a ship are:

- **Deck or Navigation:** Deck officers are responsible for the navigation of the ship and delivery of the cargo at the port of destination as per the time schedule. The department also looks after the general maintenance, administration, observance of national and international maritime laws and discipline on board.
- **Engine:** With a basic qualification of engineering, the officers from the Engine Department are responsible for the efficient running and maintenance of the main engines and other equipments to enable the ship to sail as per the schedule.

Samundra Institute of Maritime Studies (SIMS) is a premier maritime training institute in India established by a leading, international ship management company, Executive Ship Management (ESM) Pte Ltd, Singapore. The institute prides itself with one of the most modern campus in the industry with world-class infrastructure and a serious commitment to provide an outstanding training opportunity to Indian seafarers.

Officers trained in either of the two departments work together to ensure the smooth sailing of the ship and safe delivery of the cargo. Considered one of the finest seafarer-training institutes among the maritime training facilities around the globe, Samundra Institute of Maritime Studies (SIMS) was established with an aim at developing a pool of high caliber seafarers trained at all levels to work in an increasingly demanding shipping environment. SIMS has in fact set a benchmark in maritime education within the region in just a short span of time since its incorporation in 2002.

It is the institute's commitment to provide an outstanding maritime training opportunity to the Indian seafarers in addition to developing and nurturing a future generation of competent professional seafarers to carry on the difficult task of the shipping industry for the 21st Century and beyond.

### 1.2) **POST-SEA TRAINING FACILITY, MUMBAI**

The post-sea training facility of the institute was established exclusively for the in-house crew of our sponsors, Executive Ship Management Pte Ltd, Singapore as a step to achieve the highest standards in manning. With the passage of time, the institute has now been opened for the entire maritime fraternity. Located at Chembur, Mumbai, the facility offers over 40 value-added courses to the crew members to upgrade their knowledge and keep them on top of the increasing requirement of a fast developing shipping industry. The courses range from Advanced Training on various Tanker Operations to short value-added courses like the Main Engine Maneuvering System and Safety Awareness. Many of the courses are mainly specialized training courses on gas, chemical and oil tankers.

The facilities include unique hands on equipments like a down sized stainless steel tank of a chemical tanker, bridge simulator with 240 degree field of view, liquid cargo handling simulator, main engine maneuvering simulator, hydraulic and electric trainers, etc.

As a progressive and leading teaching and training institute, SIMS provides international recognition in addition to a holistic learning experience that is over and above mandatory requirements, giving seafarers that extra edge in ensuring a safer and more efficient running of ships.

**Accreditation:** SIMS is recognized by the Directorate General of Shipping, India as well as the Maritime and Port Authority (MPA) of Singapore. It was earlier rated the highest grade by ICRA – India's leading Ratings, Research, Risk and policy Advisory Company. It is certified by leading maritime classification society, Det Norske Veritas Germanischer Lloyd Norway – Germany for ISO 9001: 2008. It is also approved by the Maritime and Coastguard Agency (UK), Panama, Liberia and Marshall Islands Authorities to run their Ship Security Officers Course. SIMS is the first and only maritime training institute in India, which is providing value-added training courses approved under DG Shipping India, MCA (UK), MPA of Singapore as well as Govt. Shipping authorities of Panama and Liberia.

### **1.3) PRE-SEA TRAINING CAMPUS, LONAVALA**

In order to extend such first class maritime training to the next generation of Indian merchant navy officers, SIMS opened its pre-sea training campus at Lonavala, Maharashtra. This state-of-the-art campus complements the post sea training facility in Mumbai.

#### **MOST MODERN CAMPUS:**

Designed to be one of the most modern residential campus of a maritime training institute anywhere, SIMS, Lonavala is comfortably located eight kilometres from Lonavala town along the Mumbai-Pune-Bangalore Highway (NH4) and encompasses an area of over 55 acres by the bank of the river Indrayani amidst the magnificent view of the Sahyadri mountain range. Just a few kilometres away on the northeast are the archaeologically famous Karla Buddhist caves, estimated over 2000 years old.

As trendsetter in the world's maritime industry, SIMS Lonavala features state-of-the-art facilities with the latest equipment. In fact, most of the equipments are real-life machineries as in ships and specially designed simulators are based on the type of vessels managed by our sponsors. The campus also features hands-on training in the **ship-in-campus** – a unique facility to simulate the real sailing experience ashore. .

The institute has empanelled a multi-specialty hospital in Lonavala for providing medical facilities to the cadets. A physician from the hospital visits the institute regularly and also when called as well to attend to cadets' sick report and advises on medicines and healthcare. Besides, the institute has a standby vehicle with driver 24x7 to attend to any kind of emergency in the campus. The institute is fully residential for the students and provides all amenities within and around the campus.

#### **WHAT WE OFFER:**

SIMS adopts a different style of learning approach that is innovative and immersive encouraging inquiry, participation and teamwork among our students. The highly selective admission is a holistic process that looks at the individual as a whole. The students are given training that is over and above mandatory international standards. Successful graduates can then look forward to a rewarding seafaring career.

All courses are under approval of Directorate General of Shipping (DGS) and additionally the DNS and B Tech (Marine engineering) courses are affiliated to the Indian Maritime University (IMU, Chennai, a Central university established under an Act of the Parliament).

SIMS offers 100% In-House placement to the cadets in our parent company "Executive Ship Management Pte. Ltd. Singapore after successful completion of course to obtain COC from DGS.

#### **CAUTIONARY:**

Admission to all the courses and programmes at SIMS, Lonavala is strictly based on merit and subject to a candidate meeting the eligibility criteria laid down by the Indian Maritime University (IMU) and DG Shipping in respect of DNS and B Tech courses and DG Shipping in respect of GME course.

All aspirants / parents are hereby warned / alerted / notified that some individuals / organisations are giving / making false and misleading advertisements / claims in newspapers, websites and other social media platforms that they can ensure admission to SIMS and also charging heavy amount for the same. SIMS wishes to authoritatively refute all such misleading false claims and advertisements. Admissions can be secured only by merit obtained in our selection process.

In this regard, SIMS requests the aspirants / parents to refrain from entering into any transaction with such elements. SIMS has not appointed any individual / agency / organisation to make such assurance on its behalf.

Despite this Notice, if any aspirant / parents still proceed with or enter into transaction with such elements, they would be doing so at their own risk and cost. SIMS shall be compelled to take legal action if it comes across any agents/brokers misleading the students and spoiling the reputation of our institution.
